Thanks, John. Yes, the rollout is set for the 21st. I'll try to get you an invitation to the webinar at 1:00 on that day.

Dana - thanks again for your note and submissions of two important Bay planning documents.

I will share a few comments on the Implementation Plan with you by tomorrow morning. No show stoppers - just some suggestions to tighten here and there.

Is the announcement still planned for Jan 21? Is a webinar still planned to help cover the main elements of the Strategy? If so, would it be possible for EPA to patch into the webinar to hear the message directly - as a listening party only.

Thanks - and look forward to our discussion in Harrisburg on Jan 26.

Jon

Hi Jon,

As we discussed, attached is the final bay paper, and the "almost final draft" of the implementation plan. The reboot strategy will be unveiled to the public at an event on 1/21, so to avoid upstaging our rollout I ask that you keep it with you and your staff until then. The implementation plan is being provided for your review and comment.

I think this is a big step in a new and better direction, and I look forward to working with you, your staff and the folks in the Bay office. Please let me know if you'd like to go through the reboot paper, and when we can sit down and start a discussion about the implementation plan.

Thanks,

Dana
